

Terms and Conditions

Guaranteed placement into apprenticeship employment within HTN's network is contingent upon the following terms and conditions:

1. Candidates must successfully, and fully complete the HTN Aspire Program in its entirety. The program requires commitment to ~263 nominal study hours throughout the program. You would be required to complete 13 units of competency for accreditation in Certificate II in Kitchen Operations (Basic Cookery), which will be recognised as prior learning if/when you progress through to a Certificate III Commercial Cookery or Certificate IV in Commercial Cookery.
2. Graduates accept and acknowledge that as part of these terms and conditions that employment would be in the form of an Australian Apprenticeship and that a contract of training with HTN would apply.
3. Graduates must meet the eligibility requirements to undertake an Australian Apprenticeship including being an Australian Citizen/Permanent Resident.
4. Graduates accept that sourcing a suitable placement to commence apprenticeship employment within HTN's network may not occur immediately upon completion of the Aspire program and could take a number of weeks.
5. Upon successful graduation from the Aspire Program, candidates agree to make themselves available and proactively participate in interviews with host businesses within HTN's network.
6. Willingness of graduates to accept placement location. HTN will endeavour to offer apprenticeship employment in a location that is within an acceptable travel time from the candidate's home. However, candidates acknowledge and accept that travel up to one hour from home may be required to secure a placement for apprenticeship employment.
7. Any guarantee of apprenticeship employment becomes null and void if the graduate refuses to accept a suitable position on offer within HTN's network.
8. Candidates acknowledge that upon successful placement into apprenticeship employment within HTN's network that circumstances beyond HTN's control may arise and that an alternate placement may be required as a result. This could be due to a change in the Host Businesses trading circumstances or other circumstances beyond HTN's control or remit.
9. Any breach of HTN's policies and procedures whilst employed by HTN as an apprentice may result in termination of employment and the cancellation of the training agreement.
